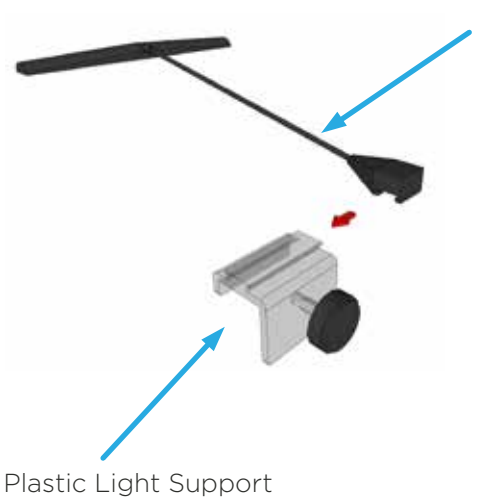
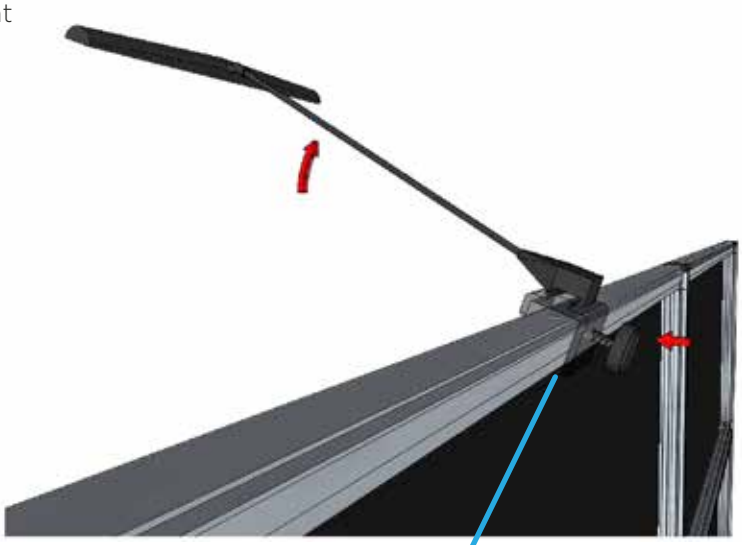
IMAGEWALL | HOW TO GUIDE
HOW TO INSTALL DISPLAY LIGHTING

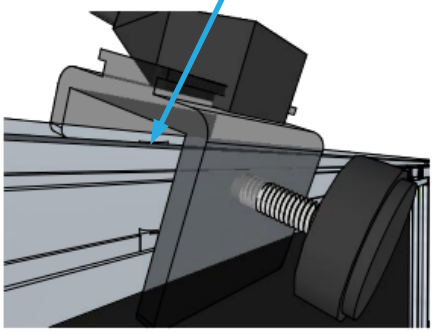
ASSEMBLY INSTRUCTIONS

Remove all products from packaging.

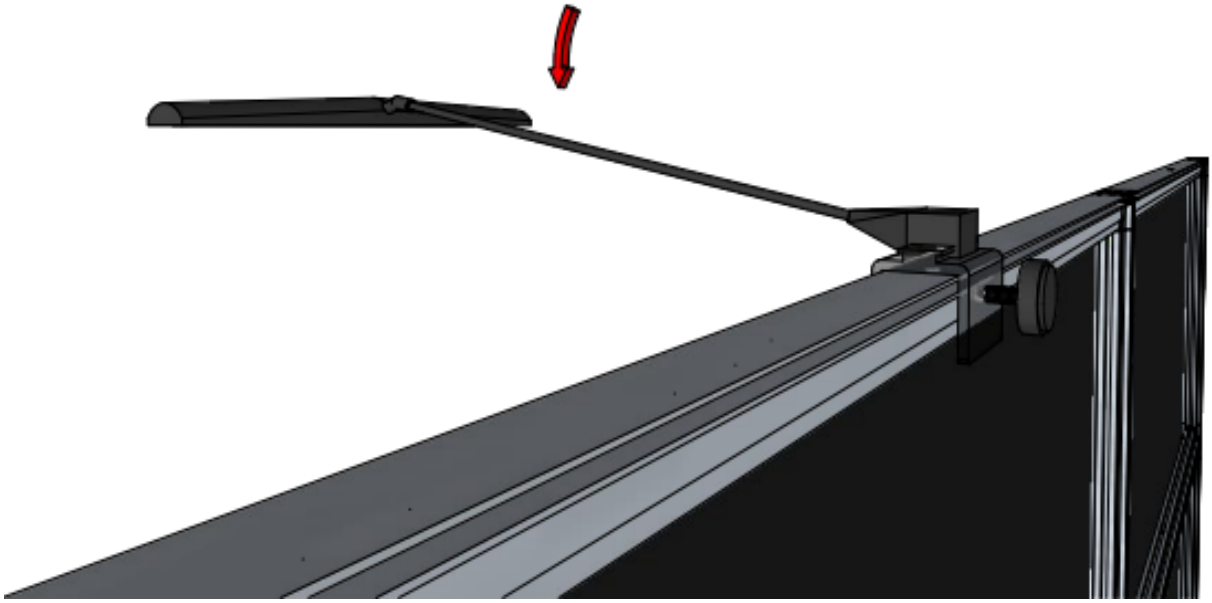
1. Note: Install the graphics before installing lights.
Slide the display light on to the plastic light support, then at an angle, attach that light support to the back of the frame system. Hook the bolt thread under the lip of the frame.







2 Push the Display Light down so that it locks in to position.



3 Once the Display Light is in position plug in the lead and switch it on.
