

XG | CUSTOM PRINTED ACOUSTIC WALL ART

Improve your space with our collection of acoustic wall art designed to combine visual appeal with sound absorption. Acoustic wall art turns standard walls into practical, sound-absorbing surfaces, enhancing a room's look and acoustics. This approach is gaining recognition in interior design, offering practical solutions such as acoustic wall art graphics, interchangeable TFS wall art frames, and seamless stretch fabric wall systems. These options not only improve the visual aspects of a space but also provide an efficient and versatile way to address acoustic challenges.

Acoustic sound-absorbing felt, when integrated with the XG TFS wall art systems, offers a versatile and functional solution for enhancing interior spaces' aesthetic and acoustic qualities.

FAST UK DELIVERY

On the next pages, you will find a guide to ordering your Acoustic Wall Art, which we hope helps you decide what you need.

Please call us on **01280 707180** if you have any questions or to discuss your requirements.

WHY WE RECOMMEND ACOUSTIC WALL ART

- Effective noise reduction
- Superior acoustic performance
- Made from recycled fibres
- Simple and quick installation
- Low-maintenance design
- Flame-retardant for enhanced safety
- Provides options for acoustic improvement, ideal for various settings.

CHOOSE YOUR ACOUSTIC WALL ART IN: 4 EASY STEPS

STEP 1: CHOOSE YOUR PRODUCT

We offer acoustic wall art solutions with two versatile options: wall-mounted tension fabric and our stretch fabric wall system, DecorTrack, designed to enhance sound quality while adding a stylish visual impact.

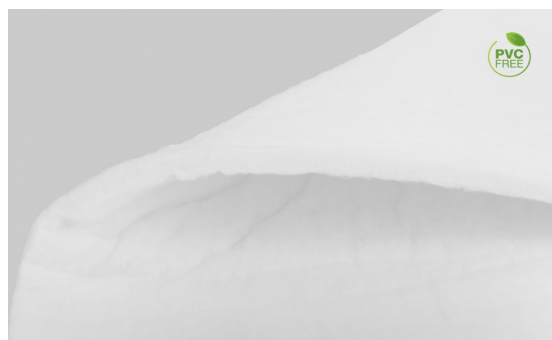

WALL-MOUNTED TENSION FABRIC WALL ART

DECORTRACK - STRETCH FABRIC WALL TRACK SYSTEMS

Acoustic sound-absorbing felt, when integrated with either our Wall-Mounted Tension Fabric Wall Art Systems or DecorTrack, a Stretch Fabric Wall Track System, offers a versatile and functional solution for enhancing interior spaces' aesthetic and acoustic qualities. This 10mm felt, made from eco-friendly materials, effectively cuts down sound reflections and ambient noise, creating a quieter space. It improves acoustics in places like stores, offices, studios, and hotels.

ACOUSTIC FELT

STEP 2: ACOUSTIC INFORMATION

Acoustic sound-absorbing felt, when integrated with the XG wall art systems, offers a versatile and functional solution for enhancing both the aesthetic and acoustic qualities of interior spaces. Manufactured from premium-quality, environmentally friendly materials, this 10mm thick felt effectively mitigates sound reflections, reducing ambient noise and creating a more serene environment.

Its sound-absorbing properties contribute to improved acoustics in spaces such as retail, offices, studios, conference rooms, libraries, restaurants, hotels and more.

ACOUSTIC FELT BENEFITS

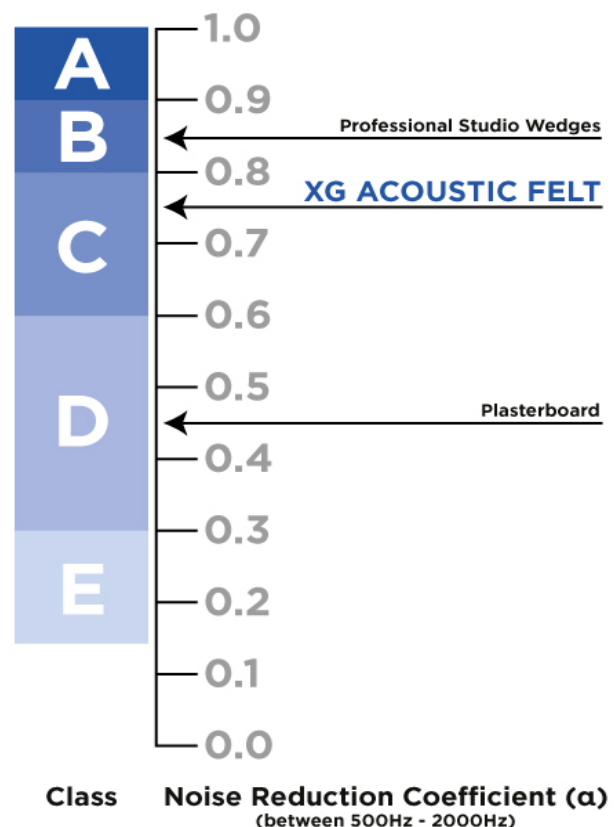

Acoustic sound-absorbing felt provides a range of advantages, encompassing both aesthetic and functional dimensions. Here are a few examples:

- Noise reduction
- Excellent acoustic properties
- Produced from recycled fibres
- Easy Installation
- Easy Maintenance
- Flame Retardant
- PVC-free

ACOUSTIC INFORMATION

The ability of a material to absorb sound is quantified by its sound absorption coefficient (α), which ranges from 0 (reflects all sound) to 1.00 (absorbs all sound). Sound absorption classes range from A to E with materials based on their absorption capabilities with Class A having the highest sound absorption.

The classification process involves assessing the Noise Reduction Coefficient and Sound Absorption Rate, both calculated over specified frequency ranges. In the case of the XG Acoustic Felt, tested within a typical frequency range of 500-2000 Hz, it falls into Class C. To provide a comparative context, professional studio proofing foam wedges are rated as Class B whereas commercial-grade plasterboard holds a Class D rating.

STEP 3: CREATING YOUR ARTWORK

You have two options when creating artwork:

1. DESIGN IT YOURSELF:

Use your preferred agency or create it yourself. The 'Templates' page has design templates for many products. For quick uploads, we recommend file transfer sites like [WeTransfer](#).

2. GET ASSISTANCE FROM XG:

If you need help with your artwork layout, we can help. Write a clear brief and email it to sales@xg-group.co.uk. Include logos in vector format (AI, EPS), fonts, and any necessary copy. Final approval is required before production. Note that artwork services are chargeable, which will be discussed during the quoting process.

GENERAL GUIDES FOR ARTWORK ARE AS FOLLOWS:

- Provide a production-ready high-resolution PDF.
- Supply your artwork in full size; provide your PDF in half or quarter size for larger prints.
- Ensure your PDF file includes image bleed.
- Set the resolution to a maximum of 150 dpi at full size.
- Embed all text and fonts.
- Transfer your files via WeTransfer.
- For complex graphic design needs, call us at 01280 707180 or email sales@xg-group.co.uk to discuss your requirements.

For more information on artwork guidelines, click [here](#).

STEP 4: HOW TO ORDER

Email your requirements to sales@xg-group.co.uk, including your full invoice and delivery address (if different). We'll send you a formal quotation for confirmation.

Non-account customers must provide full payment before order processing. Payments can be made by bank transfer (BACS), card via a provided payment link, or over the phone.

Standard delivery takes 5-7 working days, subject to availability and order quantities. We will do our best to accommodate express turnaround requests.

Acoustic Wall Art systems are made to order. Please contact us by calling 01280 707180 or emailing sales@xg-group.co.uk with your requirements and we will be more than happy to help.
