Fabric Backdrops

£ Fantastic prices

Made in the UK

Fast UK delivery

Our collection of full colour digitally printed band banners and stage backdrops are a fantastic addition to any venue, event or stage. Entice your audience and add brand identity with colourful, eye-catching graphics whether you are performing in a local pub or a major live event.

We have options of pre-set sizes but we can also custom make to any size required. You can be assured that all our fabrics are B1 fire-rated, making them safe and compliant for any venue, we will also supply an electronic PDF fire certificate.

We also offer the widest range of fabric display solutions, so if you're looking for free-standing, wall-mounted or backlit fabric backdrops or media walls, give us a call on 01280 707180 or email sales@xg-group.co.uk

Why we recommend XG's Fabric Backdrops

- High quality dye-sublimation digital full colour print
- Fully produced in-house
- B1 fire-rated
- Lightweight for hanging, storage and transportation
- Supplied with an electronic fire certification

Choose your Fabric Backdrop in 4 easy steps:

On the next pages you will find a guide to ordering your Fabric Backdrop which we hope helps you decide what you need. Please call us on **01280 707180** or if you have any questions or to discuss your requirements.

Step 1 - Material:

Our backdrops are made from dye-sublimation printed polyester fabrics which are lightweight, vibrant in colour, and can be folded and packed away for transportation and storage. Please see specifications below or contact us by calling 01280 707180 or emailing sales@xg-group.co.uk with your requirements and we will be happy to help.

Frontlit Fabric

Our frontlit display fabric is a lightweight 185gsm, 100% knitted polyester that is ultra-matte and non-glare making it perfect for on camera applications. The slightly brushed back face gives this fabric higher opacity than many equivalent products on the market.

Material: 100% polyester
Weight: 185gsm
Fire Retardancy: B1

Blockout Fabric

Our blockout display fabric is a 235gsm, lightweight 100% knitted polyester with a black PU coating to the reverse which blocks light. It has an ultra-matte and non-glare surface. Ideal for use where zero show through is required.

Material: 100% polyester
Coating: PU(polyurethane) double coated
Weight: 235gsm
Fire Retardancy: B1

Step 2 - Finishing:

Our standard application finishing is continuous eyelet webbing that provides an easy method to fix in place, similar to curtain webbing. This application allows you to use cable ties, bungees and hooks to install without piercing the main fabric or without the need for eyelet rings.
We can also finish your backdrop with pocket stitching, which uses loops at the top and bottom of the banner for a hanging banner system. Our standard pocket sizes are suitable for a tube up to 2" / 50mm but we can tailor this to any size as required.

If you require any other form of finishing, please speak to one of our team on 01280 707 180 or sales@xg-group.co.uk

Continuous Eyelet Webbing
Our standard application used for fabric banners. Finished with continuous eyelet webbing to the rear gives a cleaner look.

Pocket Stitching
Typical application using loops at the top and bottom of the banner for hanging banner systems.

Accessories
We can supply ties in a convenient pack of 12, enabling you to fix your backdrop in place with ease. These are made from polypropylene braids, measuring 3mm thick and 300mm in length. When combined with backdrops that are finished with our continuous eyelet webbing, the ties secure to the webbing and can be securely tied around a pole or other fixings.
Ties (Pack of 12) £2.75

Step 3 - creating your artwork

You have 2 options when creating artwork

1. Design your own or use your preferred agency to design it for you.
We have templates for many of our products which can be found on the 'TEMPLATES' tab section of the relevant product page. We recommend using file transfer sites to upload artwork due to the speed and ease. One of these that we recommend is **WeTransfer**

2. Let XG assist you with your artwork.
If you require assistance in preparing your artwork, we can help lay out your supplied elements.
We will require you to complete our artwork brief which can be found on the 'ARTWORK' tab section of the relevant product page. This will then need to be sent to us via email to sales@xg-group.co.uk you can send a photo or a scanned version, we would also require any logos in vector format (ai,eps), fonts and relevant copy needed to complete the layout.

This process would require your approval and final sign off before production. Please note, we do charge for artwork and we will discuss this during the quote process.

General guides for artwork are as follows:

- Production ready high resolution PDF
- Supply your artwork at full size or for larger prints supply your PDF at half or quarter size.
- Supply your PDF file with Image Bleed
- Resolution to be a maximum 150 dpi at full size
- Embed all text and fonts
- Transfer your files Via We Transfer
- Should you require more complex graphic design, please call us on **01280 707180** or email **sales@xg-group.co.uk** to discuss your requirement.

Step 4 - how to order

Now you are ready to place your order:

You can contact us by emailing **sales@xg-group.co.uk** with your requirements along with your full invoice address and delivery address (if different). We will then send you back a formal quotation prior to your order confirmation.
For non account customers we will require full payment before your order can be processed.
Payment can be made by card over the phone, by bank transfer or cheque (please allow 4/5 days for cheques to clear).
Delivery is based on a standard 5-7 working day production lead time. These may vary depending on quantities and are subject to availability. If an express turnaround is required, we will always endeavour to help.
Please call us on **01280 707 180** if you need help or advice on our products or processes.

Price List

Product information and warnings

- Care should be taken when handling and installing materials to prevent them from getting dirty.
- Fabrics should be stored in a suitable container and kept away from moisture.
- We recommend using cotton gloves or washing your hands before handling and installing your fabric graphics.
- Do NOT tumble dry
- Keep away from naked flames and other heat sources. Due to the nature of the coating on this product
  (a water-based fire-retardant coating), repeated washing will decrease the effectiveness of the fire retardancy.
