

## Branded Inflatable Tents

Branding  
options

Fast  
setup

Fantastic  
prices

Our custom printed branded inflatable event tents are made to order with full colour digital print for a more impactful design. Designed to be light, compact, fast to set up, strong and sturdy, these dome shaped event tents offer many customised options to enhance brand potential.

The strength of their structure comes from an internal tube, encased in a lightweight webbed fabric that enables a high internal pressure to be achieved. The dome shaped inflatable tent is a fantastic solution for any company wanting to increase their brand presence at events.

These inflatable event tents are available in a selection of sizes and are ideal at outdoor exhibitions, trade shows and promotional events. They come with a hand pump with the optional choice of an electric pump. Link multiple tents together to create a custom re-configurable display and maximise your branding by adding the available accessories such as branded walls and canopies.

### Why we recommend XG's Branded Inflatable Tents

- Made to order digitally printed canopies and sidewalls
- Limitless branding potential
- Innovative Design
- Tough and durable
- Fast set up
- A range of side wall options are available as additional item
- Once inflated our inflatable tents do not require continuous air flow to maintain pressure
- Pressure safety valves to manage over inflation

## Choose your Inflatable Tent in 6 easy steps:

On the next pages you will find a guide to ordering your Branded Inflatable Tent which we hope helps you decide what you need.

Please call us on **01280 707180** or if you have any questions or to discuss your requirements.

### Step 1 - Shape:

The dome shaped inflatable tent is a fantastic solution for any company wanting to increase their brand presence at events and is available in a selection of sizes. The inflatable tent comes with a hand pump with the optional extra of an electric pump for quicker inflation.

3x3M Inflatable Tent

4x4M Inflatable Tent

5x5M Inflatable Tent

6x6M Inflatable Tent

### Step 2 - Added Accessories:

For protection against rain and wind, you can attach opaque as well as clear sidewalls to the tent.

Please call us on 01280 707180 to discuss your requirements.

Full Height Walls

Awning & Awning Wall

Walls with Windows

Awning & Awning Banner

Awning & Awning Window Wall

## Step 3 - Accessories:

### Sidewalls

Consider logo placement on your walls and walls with windows. Walls are often used to close up the tent after an event or for shelter from bad weather. Logo placement is essential especially for areas such as windows.

### Awnings

Awnings offer a fantastic shelter for the entrance to your tent and allow you to offer additional branding to ensure your maximum exposure. Our awnings are supplied with an extra zip, allowing you to additionally brand awnings with an awning banner and/or an awning wall.

### Linking

Link multiple tents together to create a custom re-configurable display and maximise your brand space.

### Hand Pump

The hand pump comes as part of our frame and canopy bundle and is available as an extra accessory.

### Electric Pump

Upgrade to our electric pump to inflate your tent in minutes. Please note that mains electricity or an external power source is required.

### Additional Sand Bags

These sandbags weigh 20kg when filled completely with sand, which helps keeping the tent stay erect in its position. It is recommended to use 4 sand bags per tent.

## Step 4 - Colour:

These are the standard colours available for Canopies, Sidewalls, Awnings and Linking Tunnels\*. You can also have your inflatable tent branded with a simple logo and text or full colour images on the roofs and sidewalls

White

Black

Red  
Pantone 186

Yellow  
Pantone 109

Blue  
Pantone 300

\*Pantone references given are a guide ONLY and may not match the pantone exactly.

## Step 5 - creating your artwork

---

You have 2 options when creating artwork

### 1. Design your own or use your preferred agency to design it for you.

We have templates for many of our products which can be found on the 'TEMPLATES' tab section of the relevant product page. We recommend using file transfer sites to upload artwork due to the speed and ease. One of these that we recommend is **WeTransfer**

### 2. Let XG assist you with your artwork.

If you require assistance in preparing your artwork, we can help lay out your supplied elements.

We will require you to complete our artwork brief which can be found on the 'ARTWORK' tab section of the relevant product page. This will then need to be sent to us via email to [sales@xg-group.co.uk](mailto:sales@xg-group.co.uk) you can send a photo or a scanned version, we would also require any logos in vector format (ai,eps), fonts and relevant copy needed to complete the layout.

This process would require your approval and final sign off before production. Please note, we do charge for artwork and we will discuss this during the quote process.

General guides for artwork are as follows:

- Production ready high resolution PDF
- Supply your artwork at full size or for larger prints supply your PDF at half or quarter size.
- Supply your PDF file with Image Bleed
- Resolution to be a maximum 150 dpi at full size
- Embed all text and fonts
- Transfer your files Via We Transfer
- Should you require more complex graphic design, please call us on **01280 707180** or email **[sales@xg-group.co.uk](mailto:sales@xg-group.co.uk)** to discuss your requirement.

## Step 6 - how to order

---

Now you are ready to place your order:

You can contact us by emailing **[sales@xg-group.co.uk](mailto:sales@xg-group.co.uk)** with your requirements along with your full invoice address and delivery address (if different). We will then send you back a formal quotation prior to your order confirmation.

For non account customers we will require full payment before your order can be processed.

Payment can be made by card over the phone, by bank transfer or cheque (please allow 4/5 days for cheques to clear).

Delivery is based on a standard 14-21 working day production lead time. These may vary depending on quantities and are subject to availability. If an express turnaround is required, we will always endeavour to help.

Please call us on **01280 707 180** if you need help or advice on our products or processes.

- Air volume: max 1700 l/min
- Fitted with thermal cut out

Product	Dimensions (mm)	Weight (Kg)
Electric Pump	150 x 160 x 170mm	1.7

## Product information and warnings

- Inflatable tents are designed as temporary shelters - do not leave up for prolonged periods.
- We recommend that inflatable event tents are not used in potentially windy or stormy conditions as this may cause damage.
- It is recommended to completely dismantle the tent if winds exceed 50km/hr\*. Wind loading certificates are not available as these are temporary structures only.
- Structures should always be inflated correctly, secured (anchored) properly using the appropriate leg weights and guy ropes.
- The shelter/canopy is made from flame retardant materials and conforms to BS:7837:1996 but the fabric may burn if left in continuous contact with any flame source.
- Consider weather conditions and use in direct sunlight as this can affect the pressure and stability of the tent. Monitor the pressure and re-apply if required.
- Do not use in a lightning storm.
- Do not leave unattended.
- Do not build fires within the Tent.
- Due to continual product development, we reserve the right to change any product or specification without prior notice.
- All weights and dimensions are approximate, and we accept no liability for any variance.
