

## Café-Barriers

Fantastic  
prices

Branding  
options

Fast  
setup

Custom printed café barriers or café banners are a great high-quality addition to outdoor restaurant seating areas. They are DDA compliant (see 'Hardware') and available in a range of sizes, materials and branding options. Also perfect for outdoor and indoor events, roadshows, product launches and exhibitions, they offer a practical method of showing off your brand, creating area dividers and are quick and easy to configure.

We have a variety of size and material options, including PVC-free banner which is 100% recyclable, providing an economically viable and environmentally friendly alternative to traditional PVC.

## Why we recommend XG's Café-Barriers

- D.D.A Compliant (Disability and the Equality Act 2010)
- Choice of materials
- Choice of branding options
- Multi-functional item for indoor or outdoor use
- Hardware available in Chrome or Black finish
- No tools required

## Choose your Café-Barriers in 7 easy steps:

On the next pages you will find a guide to ordering your Café Barrier which we hope helps you decide what you need.  
Please call us on **01280 707180** or if you have any questions or to discuss your requirements.

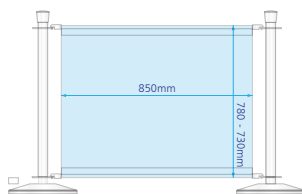

### Step 1 - Hardware Size:

We offer two types of Café barrier hardware, Deluxe chrome and economy black.

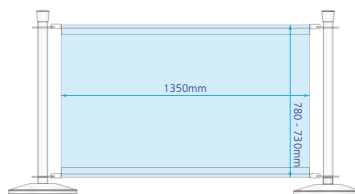

### Step 2 - Banner Size:

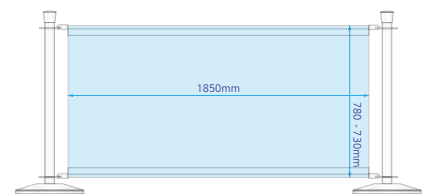

We then offer two types of set up, either a rail top and bottom 780mm (DDA compliant)  
or rail top and clip bottom 730mm.

1M Café-Barrier

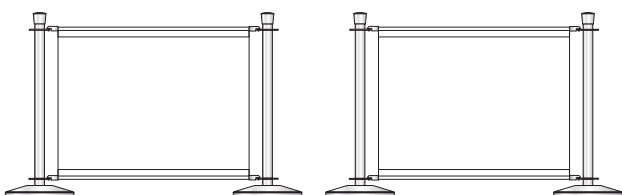

1.5M Café-Barrier

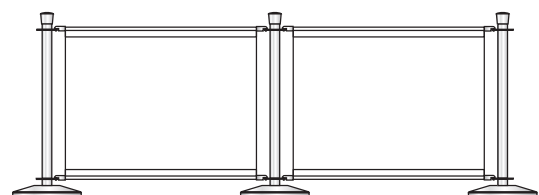

2M Café-Barrier

### Step 3 - Configuration:

Below is an example of how to decide how many components you may require. For example, for two stand alone cafe barrier systems you will need 4 posts and 4 bases. For two joined cafe barrier systems, you will only need 3 posts and 3 bases.

Stand Alone System

Joined System

## Step 4 - Configuration:

Choose either a rail top and bottom or rail top and bungee clip bottom  
Choose the quantity of posts, Choose the quantity of cross bars

Top Rail

Bottom Rail

Bottom Clip

### D.D.A Compliant

When used with both top and bottom crossbars, our café barriers allow audible tap and resistance for the visually impaired in compliance with the D.D.A (Disability and the Equality Act 2010). The system uses a fixed disc at the bottom to ensure the banner hangs in the correct position and acts as an anchor for the bottom rail without compromising the look and finish of the banner. For events, the most cost-effective way of using café barriers is to only order the top bar and fix the banner with bungees attached to the fixed disks at the bottom. This method is not recommended where there is heavy traffic, in cafes on paved/floorings or restaurant seating areas, as these usually have to comply with the DDA regulations.

## Step 5 - Material Type & Branding Options:

All barrier skins are digitally printed full colour, therefore there is no restriction on logo or branding size, as the entire face can be printed. For double-sided skins, your choice of materials enables you to select the best one for your particular requirements. Our Banner and Mesh products are now produced using a PVC-Free material, which is 100% recyclable material, fire-rated, REACH (Regulation of Chemicals) and LCA (Life Cycle Assessment) approved.

### Digital Canvas

Our canvas double-sided banners are made from two printed skins back-to-back. The material is a hard-wearing weatherproof textile with black back for zero show-through.

- Double-sided option available made from two digitally printed skins back to back .

### PVC-Free Banner

Our banner material is PVC-free and has the same strength, look, feel and performance of PVC banner.

- Available as a Single-sided or Double-sided option (single skin printed on both sides).

### PVC-Free Mesh

Our mesh single-sided banners are printed in full colour with a white reverse. Mesh is air-permeable meaning wind can pass through and help prevent the barriers blowing over.

- Available as a Single-sided or Double-sided option (single skin printed on both sides).

Our PVC-Free materials have stringent eco accreditation, including REACH & LCA compliance, unlike traditional PVC, it can be used in waste-to-energy centres where it can be incinerated safely without any harmful effects to health of the environment. There are also a number of specialist companies like Howe to Recycle provide a traceable, closed-loop recycling service to facilitate waste recycling.

## Step 4 - Colour:

Our café barrier hardware is available in two colour/style options. Chrome or Black.

Chrome

Black

## Step 6 - creating your artwork

You have 2 options when creating artwork

### **1. Design your own or use your preferred agency to design it for you.**

We have templates for many of our products which can be found on the 'TEMPLATES' tab section of the relevant product page. We recommend using file transfer sites to upload artwork due to the speed and ease. One of these that we recommend is **WeTransfer**

### **2. Let XG assist you with your artwork.**

If you require assistance in preparing your artwork, we can help lay out your supplied elements.

We will require you to complete our artwork brief which can be found on the 'ARTWORK' tab section of the relevant product page. This will then need to be sent to us via email to [sales@xg-group.co.uk](mailto:sales@xg-group.co.uk) you can send a photo or a scanned version, we would also require any logos in vector format (ai,eps), fonts and relevant copy needed to complete the layout.

This process would require your approval and final sign off before production. Please note, we do charge for artwork and we will discuss this during the quote process.

General guides for artwork are as follows:

- Production ready high resolution PDF
- Supply your artwork at full size or for larger prints supply your PDF at half or quarter size.
- Supply your PDF file with Image Bleed
- Resolution to be a maximum 150 dpi at full size
- Embed all text and fonts
- Transfer your files Via We Transfer
- Should you require more complex graphic design, please call us on **01280 707180** or email **[sales@xg-group.co.uk](mailto:sales@xg-group.co.uk)** to discuss your requirement.

## Step 7 - how to order

### Now you are ready to place your order:

You can contact us by emailing **sales@xg-group.co.uk** with your requirements along with your full invoice address and delivery address (if different). We will then send you back a formal quotation prior to your order confirmation.

For non account customers we will require full payment before your order can be processed.

Payment can be made by card over the phone, by bank transfer or cheque (please allow 4/5 days for cheques to clear).

Delivery is based on a standard 5-7 working day production lead time. These may vary depending on quantities and are subject to availability. If an express turnaround is required, we will always endeavour to help.

Please call us on **01280 707 180** if you need help or advice on our products or processes.
