Custom Printed Heras Fence Panels

£ Fantastic prices

Branding options

Fast UK delivery

Heras fence banner branding (also known as mesh banners, event fencing or scrim branding) has a multitude of applications. It can be used to connect different event areas and add cohesion to a branding programme, hide areas from view, for instance at construction sites, and is also used regularly with pedestrian and crowd control barriers, helping to promote a brand or sponsor information at events.

Available in a choice of materials and finishes to suit different applications. We can supply heras fence banners in PVC Mesh, PVC-Free Mesh and Airmesh fabric, all options are B1 fire rated. Scroll down to see which options suit your requirements.

Why we recommend XG's Heras Fence Panels

- Simple yet effective advertising.
- Lightweight and durable/weatherproof.
- Ideal for fixing with standard or heavy-duty tie wraps (cable ties)

- Long term & short-term promotional solutions.
- Fire-rated outdoor banners
- Fast UK delivery and great value for money

Choose your Heras Fence Panels in 6 easy steps:

On the next pages you will find a guide to ordering your Heras Fence Panels which we hope helps you decide what you need. Please call us on **01280 707180** or if you have any questions or to discuss your requirements.

Step 1 - Size:

Standard heras fence sizing is 3.5m x 2m. With this in mind, our standard heras panel size is 3.5m x 1.85m.
Please check though as the fence panels may vary.
We can tailor your sizes and all heras is made to order.

Step 2 - Material:

Below you will find our range of Materials available

PVC Mesh:
Our UV printed air permeable PVC Mesh is a quick and cost-effective solution to brand your area. PVC Mesh is an ideal material for long-term use like construction sites and major events as it is robust, allows wind to pass through and is durable in all weathers. Available as individual panels only.

PVC -Free Mesh:
Our UV printed air permeable PVC-free mesh has the same, look, feel and performance standard PVC Mesh but is produced using PVC-free material which is 100% recyclable. Ideal for long-term use, like construction sites and major events as its robust and durable in all weather. Available as individual panels only.

Fabric Airmesh:
Our Airmesh fabric is full colour dye-sub printed and is made from lightweight, high-quality fabric to reduce wind loading. Airmesh fabric is a popular sustainable choice for short-term promotional events and projects and is ideal for customers looking for an eco-friendly alternative to PVC Mesh. Available as individual panels and continuous runs.

Step 3 - Finishing:

We supply three standard options:

TOP CORNER CUTS
PVC & PVC-FREE MESH ONLY
We also offer PVC Mesh individual panels with top cut corners, providing a cleaner finish to fencing that has angled corners.

HEM & EYELET FINISHING
PVC MESH ONLY
The hem doubles the thickness of the banner, providing the strength required, and eyelets allow for easy fixing with either rope, bungees or cable ties.

CONTINUOUS EYELET WEBBING
FABRIC AIRMESH & PVC-FREE ONLY
Ideal for repeat use banners. Finished with continuous eyelet webbing allowing for an easy fixing solution on the rear and providing clients a cleaner look.

UNFINISHED
FABRIC AIRMESH ONLY
This is ideal for one-time use and can be fixed with cable ties straight through the fabric. Not recommended in high wind/stormy conditions.

Step 4 - Accessories:

Below you will find our range of accessories for fixing, stabilising and removing the graphics.

Cable Ties
300mm x 4mm clear nylon cable ties. Extra secure. Supplied in packs of 100.

Side cutting pliers
For removing cable ties. Hardened and tempered jaws with induction-hardened cutting edges. Moulding plastic handles with slips guards.

Step 5 - creating your artwork

You have 2 options when creating artwork

1. Design your own or use your preferred agency to design it for you.
We have templates for many of our products which can be found on the 'TEMPLATES' tab section of the relevant product page. We recommend using file transfer sites to upload artwork due to the speed and ease. One of these that we recommend is **WeTransfer**

2. Let XG assist you with your artwork.
If you require assistance in preparing your artwork, we can help lay out your supplied elements.
We will require you to complete our artwork brief which can be found on the 'ARTWORK' tab section of the relevant product page. This will then need to be sent to us via email to sales@xg-group.co.uk you can send a photo or a scanned version, we would also require any logos in vector format (ai,eps), fonts and relevant copy needed to complete the layout.

This process would require your approval and final sign off before production. Please note, we do charge for artwork and we will discuss this during the quote process.

General guides for artwork are as follows:

- Production ready high resolution PDF
- Supply your artwork at full size or for larger prints supply your PDF at half or quarter size.
- Supply your PDF file with Image Bleed
- Resolution to be a maximum 150 dpi at full size
- Embed all text and fonts
- Transfer your files Via We Transfer
- Should you require more complex graphic design, please call us on **01280 707180**
  or email **sales@xg-group.co.uk** to discuss your requirement.

Step 6 - how to order

Now you are ready to place your order:

You can contact us by emailing **sales@xg-group.co.uk** with your requirements along with your full invoice address and delivery address (if different). We will then send you back a formal quotation prior to your order confirmation.
For non account customers we will require full payment before your order can be processed.
Payment can be made by card over the phone, by bank transfer or cheque (please allow 4/5 days for cheques to clear).
Delivery is based on a standard 5-7 working day production lead time. These may vary depending on quantities and are subject to availability. If an express turnaround is required, we will always endeavour to help.
Please call us on **01280 707 180** if you need help or advice on our products or processes.
